Purchaser agrees that this Order includes all of the terms and conditions on both the face and reverse side hereof, that this Order cancels and supersedes any prior agreement and as of the date hereof comprises the complete and exclusive statement of the terms of the agreement relating to the subject matters covered hereby, and that THIS ORDER SHALL NOT BECOME BINDING UNTIL ACCEPTED BY DEALER OR HIS AUTHORIZED REPRESENTATIVE AND IN THE EVENT OF A TIME SALE, DEALER SHALL NOT BE OBLIGATED TO SELL UNTIL APPROVAL OF THE TERMS HEREOF IS GIVEN BY A BANK OR FINANCE COMPANY WILLING TO PURCHASE A RETAIL INSTALMENT CONTRACT BETWEEN THE PARTIES HERETO BASED ON SUCH TERMS. Purchaser by his execution of this Order acknowledges that he has read its terms and conditions and has received a true copy of this Order.

ACCEPTED BY: Henry Kucera
 DEALER OR HIS AUTHORIZED REPRESENTATIVE

Step 2 Dealer Order Form

- First Chevrolet created document describing the Corvette order.
- Quadruplicate Form
 - White – Zone Office
 - Yellow- Processing at St. Louis plant
 - Green – Returned to dealer with estimated production date
 - Blue- Remained with Dealer in records
 - (Dealer eventually keeps Green and Blue copies)

Step 2 Dealer Order Form cont.

- D.O.F contained all information to order a Corvette to meet the customer's request. Boxes marked with "X" at RPO designations.
- Pre-numbered by Chevrolet when received by the dealer from Chevrolet. This number is the only designation to follow a Corvette all the way through its build, from originating dealer to wholesale invoice.
- Every following document reproduced this number, except the window sticker.

RS-5-SP

FCRG

Step 3 Order Confirmation card

- Oak-Tag card printed by Chevrolet to designate every option required for that particular build. The card confirmed the dealer order as forwarded by the dealer. (no image available)
 - Specifies the date St. Louis received the order from Zone and the expected date of production.
 - Contained the dealer order number – the sole means of identifying the build to this point in the process.
- 
- 

Step 4 The Corvette Order

- Internal St. Louis Assembly plant document.
 - Complete options list and manufacturing record
 - Printed as a packet of 7 multiple pages.
 - Pages distributed (1) on manufacturing line, (2) plant record keeping, (3) Zone record, (4) selling dealer
 - Not all pages were identical. Page 7 had additional engine information, transmission, carburetor, key number, rear axle, and final assembly date.
 - This document was finalized at “body drop” on the assembly line.
- 

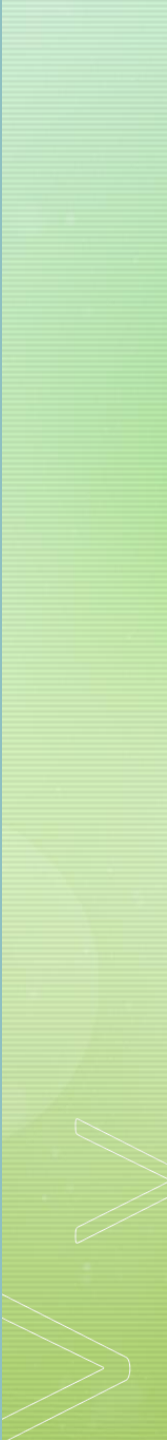

Step 4

The Corvette Order cont.

- VIN's were not designated on the documents until after “body drop”, at the Hard Trim station.
- Vin tags were created prior to production and dispersed the morning of each build in the exact number projected to build for that day. The VIN and Trim tags were delivered at the Hard Trim Line station for installation.
- Internal assembly identification sequence numbers were assigned to each build. This number appears on all Corvette Order Copies in the top left cell. The order received date is next. Then date of production (often only the year is noted – 9/00/00 for 1969). The Dealer order form number appears in the 4th cell from the left. Next is the Zone number and Dealer number. Below that is the model and the paint designation. Below that are the listed options.

Step 4 The Corvette Order cont.

- The internal assembly number was created because there was no useable sequence for the Dealer Order Form number.
 - A sequence number, 1 through 500, was added for inventory sequencing and production. This coordinates with the Exception Control Letters inventory system.
-

Step 6

Tank Sheet – Order copy

- 1967 and forward at St. Louis copies installed on car
- Different from the primary Corvette Order
- Serrated top and bottom (Originality)
- No VIN number yet. VIN's (and trim tags) were installed on the "Hard Trim Line" where exterior windshield moldings, glass, weatherstrip, etc... were installed. All VIN's were installed at St. Louis including A.O. Smith bodies.
- No specific Assembly Codes
- Options broken into two categories: (1) General Build Options and (2) Comfort and Convenience Options
- Created before VIN was assigned

7. DEALER'S COPY

CHEV. 200C REV. 3-66 PRINTED IN U.S.A.

This is dealer copy of Corvette order copy which was glued to top left side of gas tank on 1967 and later cars. Note that this copy has the serial number, engine and transmission numbers and key numbers.

Step 7 Exception Letters (ECL)

- The Corvette Order and the Tank Sheet Order Copy are the first documents to include ECL's.
 - Inventory tracking and placement
 - Supported accuracy of options for each vehicle making sure that the correct trim item was available at the time of installation.
- 

Step 8 Delivery Form (Window Sticker)

- Per Federal Law
- Options with retail pricing
- Include all ECL's, VIN, ST Louis ID number, dealers name and address, Zone code, Dealer code
- They do not include the originating dealer order number.

Step 10 Wholesale Invoice

- This is the most informative of all of the GM created documents.
 - Contained every piece of information that the dealer needed to complete the sale.
 - Destination charges, wholesale cost of every option, retail prices, how shipped from factory, invoice codes, key numbers, selling dealer name and address, purchasing institution if financed, original dealer order form number.
- 

Step 1

Warranty Book and Protect-o-Plate

- Vin and car data were created using Addressograph machines.
Engine-Transmission-Rear end
- Customer data created at the selling dealer using Dymo Model M-14 Tapewriter printing machines, often in reverse. Included in owner's packet.
- 1965-1972 inclusive

- The end
